

# AH-4 (ACTIVE)

If you play heavy metal and you're looking for a pickup that performs with full bass notes, amazingly strong and clear middles plus and extremely bright and clear blistering treble then the AH-4 is your best option for an incredible performance, not to mention the fact that it's equipped with Polyurethane copper wire and Ceramic magnets, this pickup will make you stand out.

Our newly designed super-efficient preamp features a power consumption of only 90 micro-amperes. That means your 9 volt battery will last approximately 6,000 hours, which translates to that on a guitar that is using two AH-4 pickups and you play 5 hours a day, the batteries will last for 1 ½ years

Position	Resonant Peak	Spacing	Output Level	Tone Chart:
NECK:	4.1 kHz	50 mm	HIGH	
BRIDGE:	3.4 kHz	50 mm	HIGH	

### MORE INFORMATION

Type: DUAL COIL

Copper Wire: POLYURETHANE

Magnet: CERAMIC (BAR)

Battery Life: 6000 HOURS

Current Consumption: 90 µA

4 CONDUCTOR WIRE:

RED-DC 9VOLT

WHITE & BLACK-HOT

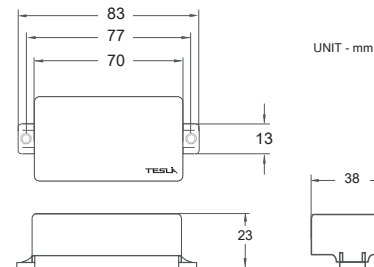

GREEN & SHIELD-GROUND

PICKUP COLOR:

BLACK

MUSIC STYLES:

ROCK, METAL, POP

UNIT - mm

Neck & Bridge
